

Welcome!

This training is for educational purposes only. All examples and analysis are intended for these purposes and should not be considered as specific investment or trading advice. All examples are for the purposes of teaching and are not intended to suggest future results. The risk of loss in trading securities, options, futures, forex and cryptocurrencies can be substantial. Individuals must consider all relevant risk factors including their own personal financial situation before trading. Options, futures, and forex are considered more sophisticated investment vehicles due to high leverage and are not suitable for all investors.

A Bitcoin coin is shown in the center, surrounded by a dynamic, colorful motion blur effect in shades of orange, yellow, and red, suggesting speed and digital movement.

Day 1: The Future of Finance

Why Do You Need to Trade Crypto and Why Now?

Why Crypto?

- ➔ Fastest growing tech in history
- ➔ 1 in 7 Earthlings trading crypto by 2025
- ➔ Largest money making opportunity in our lifetimes (maybe ever!)
- ➔ And the #1 reason....

Why Crypto?

- ➔ Because you keep hearing about it and you know deep down it's driving you crazy that you don't know how to make lots of money trading this strange invisible thing called CRYPTO!!!!

Q: Why do you need this challenge?

A: Because most people do not know how to trade crypto the right way...

(Don't be like Mike...)

The Money is not made by
owning crypto, The money
is made WHEN YOU SELL
IT FOR A PROFIT.

The next 7 days is going to
solve all of that for you.
All I ask is that you show up.

7 DAY
CRYPTO
CHALLENGE

OVERVIEW

My Promise:

**In 7 Days you will
understand crypto and
how to trade it.**

What you will NOT get:

**You will NOT be the
ultimate crypto trading
guru in 7 days...**

7-Day “Getting Started” Challenge

Day 1	The Future of Finance - Crypto
Day 2	Buying & Selling Crypto
Day 3	What Cryptos Are Available
Day 4	How to Pick Winning Crypto
Day 5	Profiting with Trends
Day 6	The Simple Trading System that Wins
Day 7	Crypto Strategies & Techniques

All You Need to Do is SHOW UP!

- Watch the Daily Session
- Get the Recordings with VIP

About Me

- ➔ Placed my first trade in 1999
- ➔ Started teaching trading in 2008
- ➔ Dismissed Crypto as “a fluke” (mistake)
- ➔ Became interested in 2017
- ➔ Placed first crypto trade in 2018
- ➔ My fateful meeting with an Arabian Prince...

Today's Lesson

- ➔ A Little Background on the Future
- ➔ What is Crypto...?
- ➔ How to make money with crypto
- ➔ Types of crypto traders

A Little Background On The Future

Fourth Turning - Key Concepts

- Society moves through cycles like seasons
- Each “season” lasts about 20 years
- A set of 4 seasons is a “saeculum”
- History repeats itself

“What has been will be again,
What has been done will be done again;
There is nothing new under the sun.”

(Ecclesiastes 1:9)

What's Coming Next?

Old Institutions Dying Off...

- Traditional job/careers
- Higher Education
- Traditional Financial Planning
- 20th Century Banking
- Globalism

**“Every setback brings
with it the seeds of the
next opportunity”
- Napoleon Hill**

Satoshi and “His Mission”

- ➔ Jan 9, 2009 the first Bitcoin was mined
- ➔ Created to implement a way for peer-to-peer electronic transactions without a 3rd party.
- ➔ Laid the groundwork for what has become thousands

Response to Financial Crisis

- ➔ The 2008/2009 financial crisis revealed to the world the fragility of the central banking system
- ➔ Many seeking autonomy and freedom began touting the benefits of a “bitcoin system”
- ➔ This initiated what we know today as the crypto revolution.

Early Adoption & Criticism

- ➔ People loved the idea...!
- ➔ ... It was hard to be practical.
- ➔ Storage, mining, transferring, value... how would it all work?
- ➔ The next 8 years would be the proving ground
- ➔ Most said it would never work...

The Reason People Didn't Believe...

- ➡ We have all been conditioned as to “what money is”.
- ➡ It's hard to change the belief of a population
- ➡ As a culture we have had to awaken to the reality of what alternative currency could be

The 2017 Explosion

- ➡ Fall of 2017 CBOE issued the first BTC Futures
- ➡ This gave credibility from an “exchange” on the validity of Bitcoin
- ➡ BTC rallied to \$17,000, and all other cryptos followed with it
- ➡ Until the bear market...

My Tom Busby Story...

2020 & Beyond

- ➡ During the Covid Shutdowns, people started learning about and buying crypto.
- ➡ It was a perfect storm...
 - Awakening to dangers of central planners
 - Institutional money flowing in
 - Wider acceptance of crypto

Why I Think Crypto is The Future

- ➔ DeFi wins, Central Banks end.
- ➔ DeFi solves 99.999% of the institutional financial problems on planet earth.

What Is Crypto?

What is Crypto.. Actually

- ➔ Digital currency
- ➔ Not that different than what you're using now if you bank and transact with CCs and online.
- ➔ Backed by a technology not backed by the government or central agency
- ➔ Can be passed around digitally, and exchanged, for things and stuff

How Does It Work?

- ➔ Decentralized Ledger (like a book)
- ➔ An entry is called a "block"
- ➔ Lots of entries connected are a "chain"
- ➔ The reward is a digital token called the "crypto currency"
- ➔ If you want more nerdy details... I'm not the guy to teach you that!

What is It NOT...?

- ➡ Not Physical
- ➡ Not overly practical for day to day currency transactions (yet)
- ➡ Not to be thought of as a currency, so much as a technology (which is also currency)
- ➡ Not to be thought of like traditional money...

What Does Decentralized Mean?

- ➡ All money today is controlled by the government and the “central banks”
- ➡ They make the rules...
- ➡ Crypto is controlled by “consensus”
- ➡ A set of governing rules are created at the beginning of the project and those rules control the entire project

Still Don't Get it...?

- ➡ Imagine the government operated without human intervention, exactly the way the constitution laid it all out...
- ➡ Imagine no politicians or personal agendas or bias could taint the way the government worked and operated...
- ➡ Now imagine multiple check points that always guarantee compliance within the rules.

The Biggest Benefit..

- ➡ Decentralized ultimately means *there is no single person or entity in the middle.*
- ➡ It's autonomous.
- ➡ I believe DECENTRALIZED FINANCE (DeFi) as whole, is the future of finance

What Do You ACTUALLY Need to Know?

- ➡ It works.
- ➡ 99.9% of all the things you have probably complained about regarding money, the system, and corruption, is solved with blockchain and decentralized finance.
- ➡ How to USE IT (not how it works)

What Can You Forget About?

- ➡ How it works.
- ➡ All the nerdy stuff
- ➡ Trying to guess “which crypto is the future”

It's a NEW FRONTIER!
Relax, and enjoy the
adventure...

How To Think About Crypto

- ➡ As Money (You'll be disappointed)
- ➡ Think of it as a *technology* with huge money making opportunities
- ➡ You could buy and HODL
- ➡ Or you could TRADE IT
- ➡ It's up to you

Why Trade Crypto?

- ➔ That's where you make the money
- ➔ It has enormous opportunity
- ➔ It probably IS the future of finance
- ➔ It's fun, and different, so why not?

How To Make Money with Crypto

How do you make money?

- ➔ *OWNING* crypto does not make you money...
- ➔ *SELLING* Crypto you bought at a lower price makes you money.

The KEY To Making MONEY

- ➡ *Pick a crypto (any crypto)*
- ➡ *Analyze its price movement*
- ➡ *Buy when it's trending higher,*
- ➡ *Sell when it's turning lower*
- ➡ *Repeat*

Additional Ways to Make \$\$\$

- ➡ Interest
- ➡ Staking rewards
- ➡ Free Crypto...
- ➡ Other ways (crypto is very gamified)

The primary way to make money with crypto is to trade it.

Types of Crypto Traders

Types of Crypto Traders

- ➡ HODLers (Hold On for Dear Life)
- ➡ Long-term investors
- ➡ Active Traders
- ➡ Utilitarians
- ➡ Collectors/Nostalgia

Types of Crypto Traders (cont)

- ➡ Dabblers
- ➡ Free Loaders
- ➡ Gamblers/Lottery Winners

Which One Are You?

ACTION STEPS:

- ➡ Commit To Learn Crypto...
- ➡ Show up tomorrow!
